BUREAU OF FRESHWATER FISHERIES
FRESHWATER FISH MANAGEMENT DATABASE REPORT

Report Version 2.0

Disclaimer:

The information presented in this report has been printed from the New Jersey Division of Fish, Game and Wildlife's Freshwater Fish Management Database. It is a summary document only. For more detailed information or understanding of the use of this data, contact the Bureau of Freshwater Fisheries at (908) 236-2118. Data collection and entry are ongoing, and additional survey results and stockings, both past and current, may not have been entered into the database as of yet. Survey results are influenced by prevailing weather conditions and may not reflect normal conditions. Consideration must also be given to water levels, sampling objectives, gear types, and other variables when comparing data.

Survey Data
Passaic River:

Survey Date: Monday, September 15, 1975

Reason: Classification

Survey Location:

County: Passaic	Site Alternate Name:
Township: Paterson City	Latitude (DMS): 40 54 56
NJDEP Watershed: Passaic River - Upper	Longitude (DMS): 74 10 52
USGS Quad: PATERSON NJ	

LOCATION:
Pennington Path - above falls

Survey Details:

Crew: Soldwedel	Entered by: TLS 09/25/1997
Weather:	Air Temperature: C. Survey ID: 607025402

SURVEY NOTES:
Slight gradient

Survey Data
Passaic River:

Survey Date: Wednesday, October 12, 2016

Reason: Northern Pike Assessment

Survey Location:

County: Bergen
Township: Elmwood Park Boro
NJDEP Watershed: Passaic River - Upper
USGS Quad: HACKENSACK NJ

Site Alternate Name:

Latitude (DMS): 40 55 14.8
Longitude (DMS): 74 7 46.1

LOCATION:

River Road Boat Ramp

Survey Details:

Crew: M. Boriek, C. Sedor, S. Catton

Entered by: CW 11/21/2016

Weather: Sunny

Air Temperature: 16 C.

Survey ID: -1949509119
